

First, we will have a different committee boat at the start at Lydia Shoal. "Endeavour" a 50 ft Beebe Trawler, same RC crew. Ptolemy has withdrawn. Freelyte has no sail # on main or jib. They will have their Lifeline banner displayed. and do have their sail number on their spinnaker. Astral Plane has a rating change to 69 (PHRF error).

I hope that's all...

Betsy

Martha (sail# 0) has asked to be relieved of the requirement to have life lines equipped on the boat. After reviewing the circumstances for Martha, the RTC race committee has granted this request provided that at all times while racing, crew members on deck and out of the safety of the cockpit, will be wearing a life vest with a harness connected by a short tether to a taught jack line. This exception to the PIYA Cat II rules was granted conditionally for the 2010 race for Martha and may not necessarily be granted again in future years.
